

5-button master control with
raise/lower (actual size)

Set all the lights in an entire home with the touch of a single button.

New RadioRA large button master controls enhance your lifestyle through personalized control of all your home's lighting. With the press of just one button, your home's lighting adjusts to welcome you home. Another button press can light your home for entertaining guests or adjust your lights to levels you prefer while you are away. Or, create and recall your own favorite settings to match your regular activities.

Large button master controls feature rounded buttons that are easy to press. On-button engraving is personalized for you and large enough to be read easily. Available in three configurations and a variety of colors, RadioRA large button master controls put the convenience of whole-home lighting control comfortably at your fingertips.
